

PARTNERING WITH FAMILIES & COMMUNITIES

Families and communities are at the heart of all we do at our center. Founded in 2008, we are a public service and research center that fosters family-community-academic partnerships that are relevant and responsive to families and communities by supporting community engagement, offering training, and providing evaluation and research.

"The work that we do contributes to meaningful improvements in the safety, health, and well-being of families and communities."

-Sarah L. Desmarais, PhD
Director

SUPPORTING OUR CENTER

Our center receives funding from diverse sources, including an ongoing partnership with the North Carolina Department of Health and Human Services. We also rely on community and corporate gifts to sustain and expand the work of the center. Donations may be used for efforts such as supporting student and faculty involvement with the center, including youth and family partners in advisory councils, supporting collaborations with community organizations, delivering new training programs in the community, developing new research partnerships, and engaging with the university and community.

HOW TO DONATE

Please make your contribution to the NC State Foundation, noting that you wish to allocate the funds to CFACE. All donations are 100% tax-deductible. We recognize large donors on our website. Please go to this website if you want to donate!
