### COMMENTS FROM PREVIOUS PARTICIPANTS

*My Parent Partner and I really enjoyed the Heart to Heart training. I have been with DSS for 23 years and this is truly one of the best trainings I have been to. I have always believed that team work was the best practice. Now we are better equipped to serve others. Thanks so much for offering this training (Avery County)*

*My social worker asked me if I would co-train MAPP with her. Now that I have attended Heart To Heart, I know I can! (Forsyth County Foster Parent)*

*I have been a licensing social worker, trainer, and case manager for foster families for over 10 years. I have learned that being in partnership with your foster parents is the necessary foundation for success. This is the very essence of Heart to Heart - growing in your partnership with your foster parent, your co-leader, all while you both grow as individuals. Out of all of the trainings I have attended over the years, Heart to Heart taught me more about how to relate to others and about myself than any training I have ever attended (Youth Unlimited)*

Developed by the Family Agency Collaborative Training Team (FACTT), a cross system collaborative training committee. The FACTT mission is to unify efforts that support the growth and development of North Carolina family/youth trainers and family-agency training partnerships. Presented with financial and administrative support by NC DSS and the NCSU Center for Family and Community Engagement.
