Senior Pack Planner Checklist:
This checklist is to aid you in creating your planner. To ensure that your plan is approved in a timely manner, check all of these before submitting to your adviser.

☐ Plan through graduation—There should be **NO RED X’s ON YOUR DEGREE AUDIT**

☐ If you click “add suggested plan to planner” you MUST review the courses you are planning and check your degree audit before submitting the plan! To check if the courses you planned cover everything you need for your major, click the “Validate plan” button to check your plan. It will compare your courses to the requirements.

☐ If you are planning to take any summer classes, include these in your POW

☐ Foreign Language should be completed by now. If you have not completed your Foreign Language series by now you must plan for it for the upcoming semester.
  ○ **Keep in mind that we require that you take a Foreign Language up through the 200 level, which has the prerequisites of FL? 101, FL? 102**
  ○ If you have not taken the Foreign Language Placement Test, you will either need to take it to determine which level to begin with or begin at FL? 101.

☐ Plan to take courses that meet your GEP US Diversity and Global Knowledge requirements by next semester if you have not completed them yet.

☐ Does each semester have between 15-17 hours?

☐ Are history and literature courses spread out? (No more than 1 History or Literature course planned per semester)

☐ Are Psychology courses spread out? (No more than 2 Psychology courses per semester)

☐ Is anything falling into the Non-degree section on your degree audit?
  ○ Anything falling into Non-degree is typically not counting towards your psychology degree and you might not need it. There are exceptions to this - your advisor will check if you need the courses in non-degree. You are more likely to see hours in non-degree that you do in fact need if (a) you have more than one major or a minor, (b) hours were waived and need to be made up, (c) you need to fulfill the residency requirement (25% of your courses overall have to come from NC State, 50% of your psychology courses have to come from NC State, 30 of the last 45 hours have to come from NC State).

☐ In the comments section: Make note of any planned minors or second majors; If there are any deviations from this checklist for a specific reason; If you are planning to take any Transfer courses that will meet a requirement; Any questions you have
